☐ Lighter and brighter

☐ I feel like there is better contrast on this one between the background and foreground colors. It was easier to read.

☐ All the signs are more visible

☐ I love the color combination here. It feels really inviting.

☐ The colors contrast well. I feel like the text is slightly more readable. I feel like I can trust logging in because of the blue, and blue and orange are great for the color blind.

☐ The contrast is much better

☐ The colors is nice, but I'd conside4 lower the stroke borders to 1-2pt on the text fields.

☐ I'm not sure on this one but I think yellow on dark blue may be vibrating on some screens. I used yellow and light blue in my last student project and my mentor gave me this advise. Hope this is helpful. :)

☐ Colour. More pleasant to the eyes

☐ The colors look more pleasant. The bright blue is too striking.

☐ Not as glaring
